

MESSAGE FROM OUR GM MR GAN LUCKUN

The global construction market has experienced remarkable growth in recent years. The African continent is a major contributor to this surge, and the forecast for mining sector growth is exceptionally bullish. At Maccaferri, we recognize the vast potential that lies within the African construction landscape, and our commitment to providing engineered solutions aligns with the great opportunities this growth presents.

It is with great pleasure that we announce our first Maccaferri Indaba on Rockfall & MSEW, which are solutions for the mining industry. The Maccaferri Mining Indaba is not merely a conference, it is a meeting of minds, ideas, and solutions that will shape the future of projects.

INDABA BREAKDOWN

- **21 & 22 February 2024, full-day conference.**
- **23 February 2024, 5 solution/application-based focus rooms.**

The first two full conference days will feature keynote presentations, panel discussions, and networking opportunities. The third day will offer specialized focus rooms, providing a hands-on and in-depth experience for participants to engage with Maccaferri experts. This will allow for one-on-one project-based discussions.

Join us from 21-23 February 2024 and let's collaborate to navigate this landscape and achieve tangible results together.
